

LA PALMA

CREDENZA | SIDEBOARD

by Fabio Crippa & Joe Gentile

La credenza si presenta come un antico e prezioso forziere. In questo mobile sono presenti i caratteri distintivi di forme geometriche che rimandano al periodo Decò. La ripetitività del tratto bicolore degli intarsi creano giochi ottici che si sposano bene con le forme romboidali delle maniglie. Queste ultime, trattate come gioielli, hanno incastonati dettagli in pietra semipreziosa come l'Occhio di Tigre. Questa scelta progettuale dona al fronte della credenza un armonico gioco geometrico. L'interno è esaltato non solo dal motivo a intarsio delle ante, ma anche e soprattutto dall'utilizzo dell'essenza di Zebrano o Noce Canaletto, creando un forte contrasto cromatico. Gli ottoni e il marmo del top completano il valore del mobile e conferiscono maestosità al manufatto.

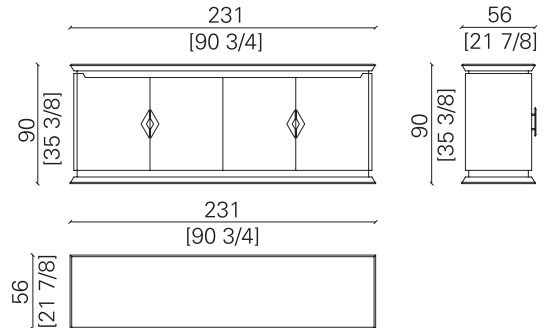

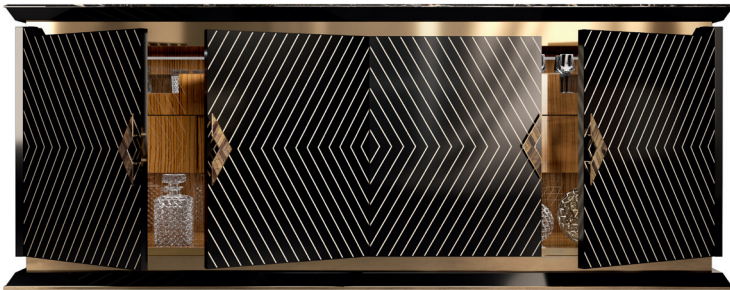

This sideboard looks like an antique and precious strongbox. It is characterized by geometric forms that recall the Deco period. The repetition of the two-toned line of the inlay work create optical effects that match the rhomboid shapes of the handles. The latter, treated as jewels, have inlaid semi-precious stone details such as Tiger's Eye. This design choice creates an harmonious geometric effect on the front of the sideboard. The interiors of the cabinets are enhanced not only by the inlay motif of the doors, but also, and especially, by the use of Zebrawood or American Black Walnut, which create a strong chromatic contrast. The brass and the marble of the top surface complete the value of the furnishing and confer majesty on it.
